

Defining the Future of the Institute of Science & Technology

Helen Sharman, OBE
President of the IST

AIM

How can we improve our services for
current and future members

Current and future issues

Limited resource

- Run by volunteers
- Low income (low membership fees)

Current and future issues

Increasing work load

- Membership rising
- Registrations rising

Current and future issues

Member Engagement

- Reaching potential members
- Meeting member needs
- Adding value for members

Current and future issues

Future Proofing - How do we

- Identifying future leaders
- Encourage current members and Fellows to get involved
- Ensure we have enough resource to meet increased membership/registration
- Raise our profile to potential members

Current and future issues

Competitive Market (us vs the big boys)

- Established recognised Professional bodies (e.g. RSC RSB)
- Specialised focussed remit

vs

- IST establishing the market?
- Broad church 'technicians' focussed

Breakout Sessions (10 mins on each)

1. What member benefits would you expect as a member and how can the IST improve it's services for members?
2. The IST executive is managed by volunteers. Would you support an increase in fees to enable the IST to employ staff to deliver improved benefits?
