MazeMap is a service that allows people to search and find different locations in and around the Lancaster University campus. MazeMap provides people with routes and directions from the location of their choice to their chosen destination, as well as providing the option to avoid any obstacles along the way.

### How do I find a route?

1. Click on the search bar at the top of the page.
2. Type in the name of the destination you wish to find and press **Enter**.
3. A sidebar should appear on the page with the options **From** and **To**. If not, click the **Directions** button.

4. In the section labelled **From**, type in the name of your current location.
5. In the section labelled **To**, type in the name of the place you wish to find directions to.

# About the IST Conference

---

The IST has been supporting the technical workforce in the creative, digital, engineering and science technologies for over 75 Years.

Our aim is to make the Institute all embracing and, in order to achieve this, help/advice networks, skills training, specialist forums, recognised qualifications, continuing career development opportunities and guidance will be available to the membership.

Recognition of professional standing is high on our agenda and, most importantly, expansion of the vibrant community of specialist, technical and managerial colleagues who will work together to help make a difference and shape the future.

Our Annual Conference plays a vital role in giving technicians the opportunity to network with other technical staff and managers from across the UK, as well as providing the chance to take part in a National event or deliver a presentations or talk.
