

KEY SPONSORS

TECHNICAL CONFERENCE 2024

Lancaster University
Tuesday 10th September

Thank You to our Key Sponsors

Contained Air Solutions

www.containedairsolutions.co.uk

Email: info@containedairsolutions.co.uk

Contained Air Solutions was founded in 2007 with the simple aim of providing a comprehensive range of clean air equipment; simple and safe to use, energy efficient and quiet in operation.

The company has since grown rapidly to become the UK's market leader in Class I, II & III Microbiological Safety Cabinets, as well as a recognised industry leader in the containment of robotics, automated processes and other complex clean air requirements.

They tailor their products to meet customers' exact clean air needs, with a flexible design philosophy backed by a very experienced team of clean air engineers, guiding customers every step of the way from initial enquiry to final product handover.

Uni Green Scheme

Uni Green Scheme

www.unigreenscheme.co.uk

Email: info@unigreenscheme.co.uk

UniGreenScheme help UK universities and the wider scientific industry reduce waste and consume resources sustainably to enable research organisations to thrive in an increasingly resource-constrained world.

They have experienced first-hand the difficulties involved in disposing of unused or surplus laboratory equipment. Currently, the most common route for equipment disposal is...well, disposal.

They offer a hassle-free, more sustainable alternative. By offering a service where they collect, store and resell equipment for reuse, preventing the needless disposal of equipment - whilst helping you to achieve your environmental targets by reducing your carbon footprint and even generate revenue by offering a share of the profit.

Wessington Cryogenics

www.wessingtoncryogenics.com

Email: sales@wessingtoncryogenics.com

Wessington Cryogenics are an engineering-led, solutions-driven and customer-focussed producer of cryogenic vessels. Founded in 1984, this UK-based company began by providing small tanks for industrial & medical research applications. Almost 40 years, and tens of thousands of tanks later, Wessington now operates from a 70,000 sq ft facility where its 130+ employees deliver vessels all over the world.

They have a wide range of products which include bulk-storage tanks, liquid helium dewars, self-pressurising vessels, ISO containers and road tankers amongst others. These are joined by an-ever increasing range of services including custom-designs, repairs and refurbishments as well as the provision of spares & accessories.

About the IST Conference

The IST has been supporting the technical workforce in the creative, digital, engineering and science technologies for over 75 Years.

Our aim is to make the Institute all embracing and, in order to achieve this, help/advice networks, skills training, specialist forums, recognised qualifications, continuing career development opportunities and guidance will be available to the membership.

Recognition of professional standing is high on our agenda and, most importantly, expansion of the vibrant community of specialist, technical and managerial colleagues who will work together to help make a difference and shape the future.

Our Annual Conference plays a vital role in giving technicians the opportunity to network with other technical staff and managers from across the UK, as well as providing the chance to take part in a National event or deliver a presentations or talk.

Previous Conferences:

- 2023 - London
- 2022 - York
- 2021 - Hybrid
- 2020 - Online
- 2019 - Birmingham
- 2018 - Newcastle
- 2017 - Leicester
- 2016 - Manchester
- 2015 - Leeds
- 2014 - Sheffield

We always aim to move around the country to give as many technicians the opportunity to attend our Conferences in future.

If you are interested in taking part in next years Conference, either being part of the organising committee, giving a talk or showcasing your specialist area, please contact us at office@istonline.org.uk.

We hope you enjoy the day at Lancaster University.
