

IST Virtual Technical Conference

Wednesday 15th September 2021

LOOKING TO THE SUSTAINABLE FUTURE

The IST Technical Conference has been specifically organised for technicians, technologists, technical supervisors, laboratory/service managers and technical managers.

Our theme for this year is **Looking to the Sustainable Future** and our programme will again be opened by our President, Dr Helen Sharman CMG OBE FRSC FIScT.

We have developed an exciting programme with a broad range of diverse topics within our overall theme and the following will give you a flavour of what to look forward to:
